You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type: Senior, Unsecured, Bearer, Medium Term Certificates.

Term: 21/09/2029 (**Maturity Date**), if not early redeemed.

Objectives: The product is designed to provide a conditional coupon on a periodical basis. An Automatic Early Redemption Event will occur, and the product will terminate early, if defined conditions are met. If the product does not terminate early, the Final Settlement Amount you will receive on the Maturity Date will be a cash amount linked to the Reference Performance on the Redemption Valuation Date. You accept the risk of losing up to virtually all of your investment.

Underlyings:

Name	Type	Currency	Exchange	Bloomberg Ticker	ISIN	Initial Value (100%)	Capital Barrier (50%)
Beam Therapeutics Inc	Equity	USD	Nasdaq GS	BEAM UW	US07373V1052	N/A	50%
Biontech Se-Adr	Equity	USD	NASDAQ GS	BNTX UW	US09075V1026	N/A	50%
Moderna Inc	Equity	USD	NASDAQ GS	MRNA UW	US60770K1079	N/A	50%
Tempus AI Inc - CL A	Equity	USD	Nasdaq GS	TEM UW	US88023B1035	N/A	50%

Coupon: You will receive the Coupon Amount on a Coupon Payment Date if on the respective Coupon Valuation Date an Automatic Early Redemption Event has not previously occurred and the Reference Performance is greater or equal to the Coupon Barrier. If Memory Effect is applicable, you will also receive the Memory Factor; otherwise, you will receive no Coupon Amount. The Memory Factor is the sum of the previously unpaid coupon amounts.

Automatic Early Redemption Event: If on any of the Early Redemption Valuation Dates the Reference Performance is greater or equal to the respective Automatic Early Redemption Level, an Automatic Early Redemption Event will occur and you will receive 100 per cent of the Denomination.

Final Settlement Amount: On the Maturity Date, if an Automatic Early Redemption Event has not occurred, you will receive the Final Settlement Amount. If the Reference Performance on the Redemption Valuation Date is greater or equal to the Capital Barrier, the Final Settlement Amount will be a cash amount equal to (1) the Denomination, multiplied by (2) 100%. If the Reference Performance on the Redemption Valuation Date is less than Capital Barrier, the Final Settlement Amount will be equal to the Reference Performance on the Redemption Valuation Date multiplied by the Denomination, subject to the Minimum Repayment (in this scenario you will incur a partial loss of the invested capital).

Additional Information: The Reference Performance is the Worst Performance across all Underlyings on a Valuation Date. The Performance of the Underlying is intended as the Reference Value of the Underlying divided by the Initial Value; if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product.

- Are experienced investors capable of understanding complex products and high market volatility;
- They have a medium- to long-term investment horizon consistent with the product maturity date of 21/09/2029;
- They are looking for an investment opportunity that reflects an expectation that every underlying increases in value over time;
- Have a very high risk tolerance (consistent with an SRI of 6) and understand they may lose a substantial portion or all of their investment;
- Can afford to absorb significant losses and have sufficient financial resources.

Synthetic Risk Indicator

If the Issuer or the Guarantor are not able to pay you what is owed, you could lose your entire investment.

Recommended holding period: 3 years Example Investment: € 10,000 Scenarios		If you exit after 1 year	If you exit at call or maturity
Minimum	EUR 0.1. The return is only guaranteed if you hold the product to early call or maturity. You could lose some or all of your investment.		
Stress (product ends after 3 years)	What you might get back after costs	€ 990	€ 260
	Average return each year	-90.05%	-69.56%
Unfavourable (product ends after 3 years)	What you might get back after costs	€ 2,340	€ 750

The stress scenario shows what you might get back in extreme market circumstances.

If the Issuer defaults you may only claim any unpaid amount from OtalaMarkets Ltd (the **Guarantor**) pursuant to a direct, unconditional, unsubordinated and unsecured guarantee. Should the Guarantor be unable to fulfil its obligations in respect of the product e.g. in the event of insolvency or an administrative order, you may suffer a partial or total loss of the invested amount. Your loss would not be covered by any investor compensation or guarantee scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different investment periods. The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here. We have assumed:

- EUR 10,000 is invested;
- the performance of the product is consistent with each holding period shown.

	If the product is called at the first possible date	If the product reaches maturity
Total costs	€ 50	€ 50
Cost impact (*)	0.5%	0.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be -32.6% before costs and -32.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit.		In case of exit after 1 year
Entry costs	Costs incurred for the purchase of the product. These costs are already included in the price you pay.	€ 50

5. How long should I hold it and can I take money out early?

Recommended holding period: 3 years

If you wish to exit the product early, the price at which you are able to sell the product may be less than the amount you invested and you may make a loss. You may only be able to sell the product before maturity (1) on the exchange, if the product is admitted to trading, or (2) off-exchange, if a buyer can be found. The price at which you are able to sell the product may be impacted by market factors including, but not limited to, movements in interest rates, interest rate volatility and the financial condition of Otala.Markets Ltd. If Otala.Markets Ltd purchases the product, Otala.Markets Ltd may deduct costs from the price it is willing to pay you (including, but not limited to costs relating to its hedging arrangements).

6. How can I complain?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of Otala.Markets Ltd, as Manufacturer, can be submitted to Otala.Markets Ltd at the following address: One London Wall, 4th Floor, EC2Y 5EA, London, United Kingdom or at www.otala.markets or to complaints@otala.markets.

7. Other relevant information

The full terms and conditions of the product are set out in the Prospectus relating to the issue of the product as supplemented and amended from time to time. The Prospectus can be found here: www.otala.markets.
